

48er-Tandler re-use shop

The Viennese second-hand store

The 48er-Tandler re-use shop offers unique items with a history. The colourful assortment of second-hand wares is collected at Vienna's waste collection centres, where people can drop off things they no longer need but that are in good repair at the "48er-Tandler box". Added to these are unclaimed items from the city's lost and found and things the offices and institutions of the City Administration no longer have a need for.

GREEN, AFFORDABLE AND FOR A GOOD PURPOSE

Waste reduction and saving resources are two of Vienna's top priorities. With the 48er-Tandler re-use store, the City of Vienna makes a considerable contribution to qualitative and quantitative waste reduction. Re-using second-hand items saves resources and extends the items' life cycle. All items are carefully sorted and checked to make sure they are in good repair. New wares come into the shop every day, many of them unique. Donating quality second-hand goods at the waste collection centres or shopping at the 48er-Tandler re-use shop is also a good way to support social initiatives, with proceeds going to projects such as homeless shelter Gruft, advice centre for asylum seekers and refugees Integrationshaus, or animal shelter TierQuarTier Wien.

SOMETHING FOR EVERYONE

The 48er-Tandler re-use shop is not just

for collectors and bargain hunters. People of all ages, tastes and interests are sure to find something they like at affordable prices, such as clothes, books, toys, sports equipment, electronics, pictures, furniture, music, MA 48 fan articles and vouchers. Outside the opening hours of the store, different events such as concerts and book readings are held.

RE-USE WRIT LARGE

Even the furnishings of the 900 m² store are re-used: many pieces are made from waste that has been given a second life by the MA 48 workshops in the form of high-quality design objects, such as room dividers, dressing rooms or tables on wheels made from old pallets.

48ER-TANDLER BOX

Pre-used items in good repair can be dropped off at collection boxes at Vienna's waste collection centres. Clothes and shoes can be donated at dedicated 48er clothing collection boxes. Approx. 100 tonnes of second-hand items are dropped off at 48er-Tandler boxes per month.
